

## ELECTRIC ACTIVE PATIENT LIFTER COD. SOL6

Electric ultra compact, portable and folding patient lifter by means of a powerful electric actuator which is controlled by a simple handset.

SmartTM Monitor diagnostic and service controls through LCD screen. It is possible to check and record the exact amount of work completed by the actuator each and every time the lift is used, regardless of a patient's weight or lift height covered. The intelligent system advises the user to schedule key maintenance helping to ensure your lift remains in optimum conditions.

Adjustable cow-horn ensures maximum flexibility and improved patient comfort. With three cow-horn height options, the Journey can support a wider range of patient heights and size.

Provided with contoured height adjustable knee pad to ensure the patient feels comfortable and fully supported during transfer and removable foot tray to transform the lifter into a rehabilitation aid that allows a patient to fully stand

Emergency stop button and mechanical descent in case of electrical failure.

Electric leg adjustment mechanism controlled by handset or by control box.

Integrated push handle for ease of manoeuvrability.

Detachable battery pack and desktop charger.

Spreader bar with hooks for loop style slings.

Complete with fully padded sling, size M, that allows excellent access for toileting and is easy to fit, providing quick and effective transfers..

Base on 2 front castors diam. 75 mm and 2 rear lockable ones diam. 100 mm

Safe working load: 155 kg

Weight: 37,5 kg

Outstanding lifting range: 720 – 1530mm

Overall dimensions: 1000 x 685 x 1130/1600 mm (legs closed)

Overall dimensions: 1000 x 970 x 1130/1600 mm (legs open)

Dim.1000x970x1130/1600 h mm
