

**DOUBLE CIAK - LINEN HAMPER  
COD. 12032**

Built with a stainless steel AISI 304 (1.4301) tubular structure, corrosion and disinfectant resistant.

The opening and the closure of the bag are pedal-operated. This is a very helpful feature that allows to use the trolley even if the operator's hands are busy; it also prevents nurses from risk of contact with waste materials.

Top opening made of glass rubber hot injected onto stainless steel supporting structure, equipped with spring loaded closing levers that hold the bag securely.

White ABS plastic recessed base.

Base on 4 non marking grey rubber swivel castors, diam. 80 mm, 2 lockable.

4 PVC non-marking bumpers.

Capacity: 70 lt (40 lt. available upon request)

Dim. 1200x500x990 h mm

**Position 1**
