

**COMBI/P - COLLECTION/DISTRIBUTION TROLLEY
COD. 10691**

Tubular structure completely made of AISI 304 stainless steel; it is hygienically safe and can be washed and sterilized.

The trolley has a lateral access for clean linen distribution and for dirty linen collection as well as a frontal access for the collection of waste materials.

The lateral part is equipped with:

- 4 AISI 304 stainless steel shelves closed on the back and the sides with stainless steel panels; it is designed for clean linen distribution and it is separated from the dirty linen collection area to avoid contamination

- 2 bag holders fixed on stainless steel frame; they are made of injection moulded rigid plastic for an easy insertion of any kind of linen and plastic bags. They are provided with 2 pedal-operated ABS lids with built-in handle, fixed by a stainless steel rod, with soft-closing and opening system. Complete with base plate for more support of bags.

The front part it is equipped with CIAK trolley, for the collection of waste materials. It is made of stainless steel and it is pedal-operated. The upper ring is covered with a rubber that blocks the bags, thanks to its internal grooves.

Base on 4 swivelling castors, Ø 125 mm, 2 are lockable, with PVC non-marking rubber bumpers.

Dim.1400x520x1050 h mm

Position 1
